PETITIONER(S): City of Springfield

Consideration of the 2037 Comprehensive plan for the City of Springfield, Illinois as amended

A public hearing was held November 16, 2017 in front of the Planning and Zoning Commission. At that time the Plan was presented and an amendment proposed and accepted by the Planning and Zoning Commission. Testimony was heard by opponents and proponents of the plan. The Commission was also provided with written comments that had been submitted to the City on the Plan. After the presentation, comments and discussion the Commission made its recommendation.

PLANNING AND ZONING COMMISSION RECOMMENDATION IS: Accept the Comprehensive Plan as amended.

Alderman Hanauer made a motion to continue the docket item to the January 16, 2018 zoning meeting. Alderman Redpath seconded the motion. Alderman Hanauer would still like to have some discussion on it tonight since there are people here that have signed up to talk about it.

Alderman McMenamin wanted to know the reason for the continuance. Alderman Hanauer said that there was some concern from realtors and developers. This plan is for twenty years, and he wants to make sure that the plan will work for everyone. Alderman McMenamin said that at the

Building and Zoning meeting when this was approved; it was approved unanimously. There were surveys done as well as members attending the ward meetings to hear what citizens wanted. It should be pointed out that there should have been better participation along the way. Alderman Senor said that this is an important document and should allow people to be heard before the final vote. Alderman Theilen echoed Alderman Senor statement and said that the Council should allow the people that will work closest to the Comprehensive Plan to have a voice before the final vote.

Alderman Proctor agreed that there are some minor tweaks that need to take place and the plan will be acceptable to all the parties. Alderman DiCenso said that she wants to know what amendments are to be offered, but she did not get that information, but other Aldermen did and she has a problem with that. Alderman McMenamain said that the Council is double faced and that relies on staff information, but now want to add amendments without any information or background.

Alderman Donelan wanted to say that this is a great plan that incorporates history while making way for the future. This is a guide and a plan for the future. Alderman Turner said that this is important documents that will guide the city for the next thirty years, and we should take as much time to get it right. It also needs to be a user friendly document.

Next, Dean Graven of 3411 Mackinaw Lane, is a member on the Springfield Area Homebuilders, Chairman of the Development Policy Council, and a voting member on the Regional Planning Commission. He would like to thank the Council for continuing this for another month because talking with bankers, developers, builders and engineers there just needs to be a little bit more time. There needs to be a good Comprehensive Plan, because if no one invests in Springfield it will die because of lack of growth.

Next, Jim Clayton with the Illinois Realtors wanted to thank the steering committee for all the hard work they did completing the Comprehensive Plan. The realtors like the plan, but they want a delay so there could be some clarification on a few things. There hasn't been enough time to go through the plan and get the clarification on the some of the language in the plan.

Next, Chris Hembrough, President and CEO of the Springfield Chamber of Commerce said that they would like a delay in approving the plan so that there can be an amendment to clarify some points of concern.

Next, Carol Kneedler of 2016 South Fourth Street spoke about the Bloomington Comprehensive Plan and how the developers had input in to the plan and had their questions answered during the process. She wished Springfield developers would have been more involved with the process here in Springfield.

Next, Norm Sims executive director of the Springfield-Sangamon County Regional Planning Commission said that this plan does not change the zoning map. If a property is currently zoned commercial, it will continue to be zoned commercial with the passage of the plan. In running these plans through simulations, there is a projected 15% growth with the recommendations that

were made. Mr. Sims said a delay would be beneficial so that we can get rid of some misunderstandings and misinformation with the zoning issues.

The motion to postpone the vote until January 16, 2018 was passed on a vote of 9-0-1 with Alderman McMenamain voting present.
